

Why Native? \ Why Now?

We know people are worried about how Covid-19 will affect everyday life, including travel and accommodation. So we've been busy behind the scenes doing everything we can to ensure the safety and wellbeing of our people and our guests.

HOME FROM HOME

Our 'home from home' stay experience doesn't just give you extra comfort, but real control of your own personal space. Enabling less direct contact with the outside world and the public areas you'd typically find in a hotel.

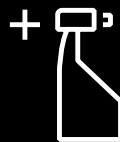

PHYSICAL DISTANCING

We're introducing physical distancing measures to protect you and our people. But don't worry, our exceptional Native service will never be more than a few metres away. That's a promise.

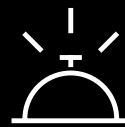

FREEDOM & FLEXIBILITY

At times like these, we know plans might change. Which is why we're all about being as flexible as possible. As ever, we're here to support you. So we'll do what we can to help if your plans change.

CLEANLINESS & HYGIENE

We've stepped up our cleaning procedures to ultra-deep cleans between all guest stays. You'll get a clean seal of approval every time you stay. Literally on your door.

MINIMAL CONTACT

From check-in and throughout your stay, we're introducing new ways to keep apart and stay in touch.

NATIVE

The fact is that with more space, flexibility and independence an aparthotel can make for a safer and more enjoyable experience.

We can't wait to welcome you, for more information contact your Travel Management Company.

Stay Safe. Stay Original. Stay NATIVE
